

# Two Harbors Public Utilities.

## Residential Home Energy Improvement Program

### Program Description

Are you planning to build or update your home this year? Two Harbors Public Utilities has expanded its Residential Home Energy Improvement Program and increased rebates to reward even more choices that improve comfort and save energy. In addition to LED lighting, high efficiency furnaces/boilers and air conditioners, energy-efficient water heaters, and low-flow aerators, you can now get rebates for qualified ceiling or wall insulation, new windows and doors, weatherization measures, and other energy-saving upgrades to new or existing homes. Just submit this form, and our energy experts will determine if your project qualifies.

Please supply the following information prior to the start of your project:

Name: \_\_\_\_\_  
Home address: \_\_\_\_\_  
Daytime phone: \_\_\_\_\_  
Email: \_\_\_\_\_
