H. Dimensional Standards and Setbacks

Dimensional standards and setbacks are designed to protect the human population as well as the natural environment. A variance subject to WCLUDO Chapter 6, or Chapter 7 may be utilized to alleviate an exceptional or extraordinary circumstances that would otherwise preclude the parcel from being utilized. A variance to these standards is not to be used to achieve a preferential siting that could otherwise be achieved by adherence to these prescribed standards.

1. Additions or modifications to existing farm or non-farm structures or group of structures built before January 1, 1997 shall be set back 40 feet from roads, 25 feet from side yards and 40 feet from the rear yard property lines. These setbacks do not apply to fences and signs. (amended 6/98)
2. New Farm or non-farm structures and dwellings on parcels unimproved as of January 1, 1997 shall be set back 200 feet from all property lines and 40 feet from roads. If the road is also a property line, the setback is 200 feet from the road. A natural topographic or vegetative barrier may reduce the setback to 100 feet. Parcels may qualify for a variance if these setbacks render the parcel impractical to develop. These setbacks do not apply to fences and signs.
 - a. In addition to the above setbacks, farm dwellings shall be set back 50 feet from any field used for agricultural crops; either on the subject parcel or adjacent parcels.
 - b. In addition to the above setbacks, Farm labor housing, and farm accessory structures shall be set back 100 feet from any field used for agricultural crops; either on the subject parcel or adjacent parcels. (amended 6/98)

6. All dwellings and structures shall be setback 100 feet from the centerline of irrigation ditches which continue past the subject parcel to provide water to other property owners. Substandard setbacks must receive prior approval from the affected irrigation district. These setbacks do not apply to fences and signs. (amended 6/98)

8. Lighting. Outdoor lighting shall be sited, limited in intensity, shielded and hooded in a manner that prevents the lighting from projecting onto adjacent properties, [and] roadways, **and waterways. The exterior of shielding and hooding materials shall be composed of nonreflective, opaque materials.** [(added 6/98)]

- ~~3. The site is not within fifty (50) feet of any bluff lines or cliffs.~~
- ~~4. The site will not obstruct any portion of any scenic view from Interstate 84, Highway 30 West, or any scenic viewpoint or vista.~~
- ~~5. The site is not unsuitable for the proposed development or could otherwise result in a negative impact on the scenic quality of the Gorge.~~

~~F. Design Requirements~~

~~If a determination has been made that the proposed development does not comply with the standards and criteria of subsection (E) above, the Approving Authority may impose reasonable conditions to meet the purpose of this district and to mitigate the visual impact. Guarantees and evidence may be required to assure compliance with such conditions. Such conditions may include, but are not limited to:~~

~~1. Preservation of Natural Features and Vegetation~~

- ~~a. In the course of construction or development, land not used should be left as such or restored to its natural state.~~
- ~~b. Living trees greater than ten inches (10") dbh (in diameter at breast height) shall be inventoried and preserved from damage during construction, within one hundred (100) feet of proposed structures.~~
- ~~c. Intensive clearing of natural vegetation on potentially unstable slopes shall be minimized. Re-vegetation where erosion susceptible soils have been disturbed shall be completed within two months or the soil shall be protected until timely re-vegetation can occur.~~
- ~~d. Clearings should be minimal in size and irregular in shape, conform to topography, and shall give the impression of or provide a natural appearance.~~

~~2. Limitations on Cut and Fill Slopes~~

- ~~a. Building sites shall not be geometrically terraced unless consistent with natural land forms.~~
- ~~b. Casting or land fills over cliffs or bluffs shall not be permitted.~~
- ~~c. Access and roads shall be designed and located to fit the natural topography with minimum grading and minimal modifications of existing~~

~~land forms. Crests and ridges are to be avoided where possible. Cuts and fills shall be rounded and re-seeded with natural vegetation.~~

~~3. Architectural Design~~

- ~~a. The design and exterior finish of all buildings should be subordinate to the natural surroundings.~~
- ~~b. Except for windows and solar collectors, highly reflective materials shall be avoided on all exterior surfaces. Colors: dull or earth tones that blend with surrounding vegetation or landscape of the building site shall be used on all exterior surfaces.~~
- ~~c. Parking lots should be sited, buffered or landscaped so that the lot and parked vehicles are obscured from all impacted view points.~~
- ~~d. Mobile homes on individual lots or in mobile home parks shall meet the requirements applying to mobile homes in each of the primary zones according to Wasco County ordinances. The following additional restrictions are applicable:
 - ~~1. The roofs shall be pitched (3/12) and shall be of composition or shake cover except for solar collectors.~~
 - ~~2. Earth tone colors that will harmonize with the surrounding terrain shall be used for mobile homes.~~
 - ~~3. A permanent foundation is required. This will either be as a solid stone or cement foundation or covered with a non-metallic colored skirt of the same composition as the siding of the mobile home.~~~~

~~4. Landscaping and Maintenance~~

- ~~a. Existing vegetation around facilities shall normally be retained and employed for landscaping and screening. Likewise, existing land forms will be preserved and utilized for screening where applicable.~~
- ~~b. Native vegetation shall be planted and maintained where necessary to screen a portion of all structures and parking areas from all impacted view points. Such vegetation shall be planted within one year after issuance of a building permit.~~

~~c. All unsightly areas shall be screened from all impacted view points by native planting, berms, walls or fences.~~

~~5. Additional Setback Requirements~~

~~In addition to the setback requirements of the underlying zone, the following standards shall apply:~~

~~a. All buildings and structures shall be set back at least fifty (50) feet from all bluff lines and cliffs unless satisfactorily screened or buffered from all impacted view points.~~

~~b. All buildings and structures shall be set back at least one hundred thirty (130) feet from the centerline of Highway 30 West unless satisfactorily screened or buffered from all impacted view points.~~

~~c. All buildings and structures shall be set back at least fifty (50) feet from the right of way of Interstate 84 unless satisfactorily screened or buffered from all impacted view points.~~

~~6. Additional Height Limitations~~

~~In addition to the height limitations of the underlying zone the following standards shall apply:~~

~~In woodland areas the height of buildings including solar collectors shall be limited to the forest canopy and will not exceed that of the forest.~~

~~On open slopes building heights including solar collectors shall be limited to twenty six (26) feet above the ground level at the building site.~~

~~Church spires, wind energy conversion systems, flag poles, transmission facilities or comparable structures shall be limited in height so as not to be silhouetted above the skyline when viewed from locations described in Section 3.700(D).~~

~~7. Additional Sign Restrictions~~

~~In addition to sign restrictions of the underlying zone, the following standards shall apply:~~

~~a. No neon or illuminated plastic signs;~~

~~b. No fluorescent colors;~~

- ~~_____ c. Shall not be illuminated directly or indirectly;~~
- ~~_____ d. No billboards or off-premise advertising signs;~~
- ~~_____ e. No sign shall obstruct any scenic view from any impacted view point;~~
- ~~_____ f. No sign shall be capable of movement;~~
- ~~_____ g. No sign shall be constructed higher than twelve (12) feet from ground level.~~

~~_____ 8. Other Limitations~~

- ~~_____ a. Outdoor lighting shall be sited, limited in intensity, shielded and hooded in a manner that prevents the lighting from projecting onto adjacent properties, roadways and the Columbia River. There shall be no visual pollution due to the siting or brilliance, nor shall it constitute a hazard for traffic.~~
- ~~_____ b. Utility structures, clearings, rights-of-way, poles and wires shall be designed subordinate to the setting in regard to site, height and bulk.~~
- ~~_____ c. Television satellite receiver dishes, solar collectors and comparable structures shall be sited or screened so that they are obscured from all impacted view points.~~
- ~~_____ d. Fences are to be constructed of non-reflective materials and/or painted with dull earth colors. Placement and alignment shall be done to minimize the view from all impacted view points.~~

~~_____ G. Description of Gorge Overlay Zone~~

SECTION 3.910 DIVISION 7 - NATURAL AREAS OVERLAY
[(Section # Amended 5-93)]

A. Purpose

This overlay district is intended to pre-empt conflicting use in areas identified in the Wasco County Comprehensive Plan as containing significant natural value. The overlay is designed to protect the identified natural value by allowing only uses which will not permanently destroy the natural value. This overlay applies to all natural areas identified in the Wasco County Comprehensive Plan and to the Wasco County portions of the Deschutes and John Day Rivers Scenic Areas as defined in ORS 390.805 and 390.82[6] 6.

B. Permitted Uses

Uses allowed in the underlying zone shall be subject to the conditional use review permit pursuant to Section 2.060(A) of this Ordinance.

C. Approval Standards

In the evaluation of any use subject to the Natural Area Overlay, finding shall be required demonstrating that the designated natural value will not be damaged by the use or activity. If a proposed use or activity would result in the permanent destruction of natural value, then the request shall be denied.

SECTION 3.920 DIVISION 8 - SENSITIVE WILDLIFE HABITAT OVERLAY
(Section # Amended 5-93)

A. Purpose

The purpose of this overlay district is to protect and preserve all sensitive wildlife habitat areas by providing supplementary development standards which promote an area wide dwelling density and minimum setback standards along riparian vegetation corridors consistent with such habitat management. This overlay district shall be applied to the sensitive Big Game Winter Range Area and the sensitive riparian and fisheries habitat as identified in the Wasco County Comprehensive Plan.

B. Permitted Uses

All uses allowed in the underlying zone may be permitted or conditionally permitted in an area regulated by this district. However, structural development shall be subject to the provisions of subsection (C) of this Section.

C. Approval Standards

1. All requests for dwellings or land divisions that will result in eventual placement of a dwelling which results in a density greater than the minimum property size of the underlying zone shall be referred to the Oregon Department of Fish & Wildlife (ODFW), for review and recommendation. If ODFW cannot recommend approval or suggest acceptable mitigation measures, a variance, pursuant to Chapter 6, shall be required.
2. All stream setbacks of the underlying zone shall be strictly maintained unless the County ministerially finds, after consultation with the Oregon Department of Fish and Wildlife, that such setback is unnecessary as a mitigation measure for the protection of wildlife. If agreement cannot be reached, a variance pursuant to Chapter 6, shall be required to reduce the setback, and reduction of setback will not jeopardize soil stability, water quality and so forth.

CHAPTER 4 SUPPLEMENTAL PROVISIONS

SECTION 4.010 Authorization of Similar Uses

The Director may permit in a particular zone a use not listed in this Ordinance, provided the use is of the same general type as the uses permitted there by this Ordinance. The decision of the Director may be reviewed by the Planning Commission on its own motion or appealed to the Commission pursuant to Section 2.060 (C)(10) of this Ordinance. Notice of Administrative Action shall be given as prescribed by Section 2.080(A) of this ordinance. Notice of a final decision shall be given as prescribed in Section 2.120(A) and (B).

SECTION 4.020 Exceptions

The Director of Planning shall be authorized to grant exceptions to the provisions of this Ordinance to any government agency that requests in writing an exception to a specific requirement or procedure; provided that the following circumstances exist:

- A. The proposed use is consistent with the purpose and intent of the Comprehensive Plan and the Land Use and Development Ordinance; and,
- B. The proposed use would serve an immediate public need; and,
- C. There is inadequate time available for a review of the use [by the Planning Commission] through normal procedures, and delays would impair project implementation or pose hazards to property or public health, safety or welfare.

SECTION 4.030 Impact Review

To ensure that adequate information is available to determine potential conflicts or detrimental effects, the Director of Planning may require the submission of an impact assessment, upon forms prescribed by the Director, before an exception shall be granted.

SECTION 4.040 Exemptions

Nothing in this Ordinance shall be deemed to apply to the construction, reconstruction, or alteration by a government agency of road or highway systems, or to the use of materials or sources within rights-of-way. In addition, maintenance rehabilitation, repair and minor betterment activities, not considered to have land use impacts, by a governmental agency on public property or facilities, shall also be exempt from the provisions of this Ordinance.

- D. Uncovered balconies or fire escapes may project into any required yard not more than three (3) feet.
- E. Uncovered terraces, decks or platforms may project or extend into a required setback not more than five (5) feet. Such terraces, decks or platforms including guardrails or fencing shall not extend thirty (30) inches above grade or ground level.

SECTION 4.090 Vision Clearance

A vision clearance area shall be maintained on the corners of all property at the intersection of two streets or a street and a railroad.

- A. A vision clearance area shall consist of a triangular area, two sides of which are lot lines measured from the corner intersection of the street lot lines for a distance specified in the appropriate zone, or, where the lot lines have rounded corners, the lot lines extended in a straight line to a point of intersection and so measured, and the third side of which is a line across the corner of the lot joining the non-intersecting ends of the other two sides.
- B. A vision clearance area shall contain no planting, fence, wall, structure, or temporary or permanent obstruction exceeding two and one-half (2 1/2) feet in height, measured from the top of the curb or, where no curb exists, from the established street center line grade, except that trees exceeding this height may be located in this area removed to a height of eight (8) feet above the grade.
- C. The following measurements shall establish vision areas:
 - 1. In an agricultural or residential zone, the minimum distance shall be thirty (30) feet, or, at intersections including an alley, ten (10) feet.
 - 2. In all other zones where yards are required, the minimum distance shall be fifteen (15) feet or, at intersections including alley, ten (10) feet, except that when the angle of intersection between streets, other than an alley, is less than thirty (30) degrees, the distance shall be twenty-five (25) feet.

SECTION 4.100 Fences

No fence shall exceed six (6) feet in height or two and one-half (2 1/2) feet in a vision clearance area. Game fences designed to protect agricultural crops from game

animals shall be included in the definition of fence (protective), however, they are exempt from the height limit.

SECTION 4.110 Off-Street Parking

At the time of erection of a new structure or at the time of enlargement or change in use of an existing structure, off-street parking spaces shall be provided in accordance with this Section. In an existing use, the parking space shall not be eliminated if elimination would result in less space than is required by this Section. Where square feet are specified the area measured shall be the gross floor area necessary to the functioning of the particular use of the property but shall exclude space devoted to off-street parking or loading. Where employees are specified, persons counted shall be those working on the premises during the largest shift at peak season, including proprietors.

The following are the uses and minimum standards provided for off-street parking:

A. Residential

1. Single-family dwelling: One (1) space per dwelling unit.
2. Residential hotel, rooming or boarding house: Four (4) spaces per five (5) guest accommodations, plus one (1) space per two (2) employees.
3. Two family or multi-family dwellings: Three (3) spaces per two (2) dwelling units.

B. Commercial Residential

1. Motel: One (1) space per guest room plus one (1) space for owner or manager.
2. Club or Lodge: One (1) space per five (5) seats, or one (1) space for each fifty (50) square feet of floor area used for assembly, whichever is greater.

C. Institutional

1. Welfare or correctional institutions: One (1) space per five (5) beds for patients or inmates, plus one (1) space per employee.
2. Convalescent hospital, nursing home, sanitarium, rest home for the aged: One (1) space per five (5) beds for patients or residents, plus one (1) space per employee.
3. Hospital: Three (3) spaces per two (2) beds.

D. Places of Public Assembly

- B. All awnings carports, ramadas, cabanas, and garages shall be painted and designed in a style complementary to the design of the mobile home.
- C. Wheels shall be removed from all mobile homes at the time of installation on property. In addition, tongues, and hitches shall be removed from all mobile homes wider than ten (10) feet that are installed on any parcel of land, exclusive of licensed mobile home parks. The Director of Planning may exempt certain mobile homes from the last requirement when removal would damage the frame and weaken the structure.

SECTION 4.170 Development Standards for Guest Houses (Added 1-92)

A guest house may be allowed **as listed in specific zones ("F-F", "R-R", "R-R(10)", "A-R", "R-1", "R-2", "R-3", "R-4", and "R-C")** on a ~~[lot-of-record]~~ **legally created lot or parcel** on which a primary dwelling is situated, subject to the setback requirements of the underlying district, and the provisions of this section;

- A. Only one (1) guest house shall be allowed on a lot-of-record.
- B. The maximum floor area of a guest house, including all levels and basement floor areas shall not exceed six-hundred (600) square feet. Garage area shall not count toward the total floor area.
- C. A guest house shall be located within one-hundred (100) feet of the primary dwelling on the subject lot-of-record. This distance shall be measured from the closest portion of each structure.
- D. Occupants of a guest house and the primary dwelling shall live together as one house keeping unit, sharing one kitchen and one laundry facility, to be located in the primary dwelling. A guest house shall be permitted one (1) bathroom, but not a refrigerator or freezer, range/stove/oven, or other cooking appliances.
- E. All public water, electricity, natural gas and sewer services for the guest house shall be extended from the primary dwelling service. No separate meters for the guest house shall be allowed. A separate telephone line for the guest house may be provided.
- F. A guest house shall use the same septic system as the primary dwelling. Approval from the County Sanitarian shall be required.

{Section 6.030, Dividing Feature Provision...}

The use of the proposed parcel is precluded as a practical matter by virtue of one or more of the following controlling factors:

Physical separation of the parcel from the rest of the over-all ownership by a significant water course; by a topographic or similar natural feature; or, by a railroad, or similar controlling man-made feature, the location over which the owner had no control. For the purpose of this section a controlling factor is a condition which effectively prevents the use of a portion of the land as a practical matter. Controlling factors do not **include** public highways, streets and alleys, seasonal drainage channels or minor creek beds, or topographic features with slopes of under sixty percent (60%). In addition to the requirements of Section 6.020, the following criterion shall be met:

2. The proposed parcel shall have a sufficient area and otherwise be capable of being served by a domestic water supply and sewage disposal system approved by the appropriate sanitary authority. Written notification of such approval shall be filed with the Director as part of the application.
3. The parcel requiring the variance is consistent with the Conditional Use approval standards in the applicable zone; and
4. Complies with the circumstances listed in Section 6.020.
5. The Director shall determine whether or not the controlling factor described above warrants approval of the application.
6. The parent parcel shall otherwise have sufficient acreage, as required by the zone, to be divided.

CHAPTER 7 ADMINISTRATIVE VARIANCES ~~[(Revised 1-92)]~~

SECTION 7.010 Administrative Variance from ~~[Building Setback Requirements]~~ **Dimensional Standards, excluding Minimum Lot Size**

- A. An administrative variance from regulations covering any building setback, **building height, or building size** requirement may be authorized pursuant to the Administrative Action process of Section 2.060(A) up to a maximum of fifty percent (50%) of the requirement, by the Director **or designee** upon findings that:
1. Approval of the variance will not negatively impact adjacent properties;
 2. The variance does not result in a setback of less than five (5) feet; and
 3. Complies with circumstances listed in Section 6.020.
- B. **An administrative variance from regulations covering any size limit for an accessory building may be authorized pursuant to the Administrative Action process of Section 2.060(A), by the Director upon compliance with A.1. and 3. above.**
- C. ~~[B-]~~ An Administrative Variance is void if it conflicts with any restrictive covenant applicable to the property at the time such variance is granted.

{Section 8.040 Conditions Relative to the Issuance of Temporary Permits...}

7. Control of noise, odors, or other nuisances;
 8. Limitation of time for certain activities.
- B. Any temporary permit shall clearly set forth the conditions under which the permit is granted and shall clearly indicate the time period for which the permit is issued. No temporary permit shall be transferable to any other owner or occupant, but may be renewable through the Administrative Action process.
- C. All structures for which a temporary permit is issued:
1. shall meet all other requirements of the zoning district in which they are located;
 2. shall meet all applicable County health and sanitation requirements;
 3. shall meet all applicable County building code requirements;
 4. shall be removed upon expiration of the temporary permit unless renewed by the Director, or used in conjunction with a permitted use; and
 5. Shall be hooked up to the same septic system as the primary dwelling.

SECTION 8.050 Issuance of Permits

- A. Temporary permits shall be issued for the time period specified by the Approving Authority but may be renewable upon expiration as an Administrative Action if all applicable conditions can again be met. ~~[In no case shall a temporary permit be issued for a period exceeding one (1) year, unless the temporary permit is renewed.]~~
- B. Renewal of a temporary permit shall follow the same procedure as the initial application.

SECTION 8.060 Exemptions

The temporary placement of a mobile home as provided for in Section 8.070 shall not be subject to the provisions of Sections 8.020 through 8.050.

SECTION 8.070 Temporary Use of a Mobile Home (Family Hardship)

- A. During a family hardship condition where the condition relates to the aged, infirm or to persons otherwise incapable of maintaining a separate residence, the Director may authorize the placement of a mobile home on a lot if the following criteria are met:

1. The request for the mobile home is submitted in writing. Such request shall state the nature of the hardship, the names of the persons who will occupy such dwelling, the relationship of the occupants of such dwelling to the residents, and the estimated period of time the dwelling will remain on the property.
 2. The additional dwelling will use the same subsurface sewage disposal system used by the existing dwelling and that said sewage disposal system is adequate to accommodate the additional dwelling. If the additional dwelling is to utilize a public sanitary sewer system, such condition will not be required.
 3. The additional dwelling is a mobile home or recreational vehicle as defined in Section 1.090 of this Ordinance.
 4. **The additional dwelling shall be located within 100' of the primary dwelling.**
 5. [4-] The location and use of the additional dwelling otherwise conforms to the provisions established for the zone district.
- B. Temporary placement of an additional dwelling shall be granted for the time period specified by the Director but may be renewable upon expiration if all applicable conditions can be met. In no case shall a temporary placement be authorized for a period exceeding two (2) years, unless the temporary placement is renewed.
- C. The Director shall determine whether or not the conditions described in this section warrant approval of the request to place an additional dwelling on the property. The Director may require a doctor's statement showing that the person is incapable of maintaining a separate residence and needs to be near a family member for care and supervision. The Director may also require the applicant to provide any other evidence as he deems necessary to make that determination.
- D. Upon expiration of the time period for which the temporary placement was authorized, the property owner shall have ~~thirty (30)~~ **sixty (60)** days in which to remove the additional dwelling from the property, unless an extension is granted as prescribed above.

~~[CHAPTER 10 - DIVISION OF NON-RESOURCE LANDS IN DESIGNATED RESOURCE AREAS~~

~~SECTION 10.010 Purpose~~

~~— The purpose of this chapter is to allow the division of non-resource lands in agricultural or forest areas, and to segregate existing dwellings not involved in resource management; and to create new dwelling sites not in conjunction with resource use or to allow permitted or conditionally permitted uses on a separate unit of land from parcels devoted to such management and to provide reasonable guidelines and criteria to be applied which will protect these resource lands from an unwarranted influx of incompatible development.~~

~~SECTION 10.020 Criteria for Decision~~

~~— Land divisions proposed under this chapter for property zoned "F-2", "A-1", and "FF" shall conform to the following criteria, and shall be processed pursuant to Section 2.060(C):~~

- ~~— A. That the use is compatible with commercial farm use described in O.R.S. 215.203(2) and will not seriously interfere with the usual and normal farm practices, as defined in O.R.S. 215.203(2)(c); including hazardous pesticide or herbicide applications, noise, dust, smoke or offensive odors which may occur on adjacent agricultural lands.~~
- ~~— B. That the use will not materially alter the stability of the land pattern in the area.~~
- ~~— C. That the land is not generally suitable for the production of timber, farm crops or livestock, as conducted in that particular area considering the soil, slope, vegetation, size, shape, or other physical characteristics.~~
- ~~— D. That the site has appropriate physical characteristics, such as adequate drainage, proper sanitation and water facilities to accommodate a residence.~~
- ~~— E. The size of a new parcel created pursuant to this chapter shall be as small as practicable, while ensuring that the criteria listed in this chapter are met.~~
- ~~— F. A non-exclusive resource management easement shall be filed by the property owner with the County Clerk. Such easement will specify that owners of adjacent land will be allowed to conduct normal resource management practices on their properties and the owners (and subsequent owners) of the subject property waive all rights to object to legal resource management activities.]~~

~~[CHAPTER 11 APPROVAL OF A NON FARM/NON FOREST
DWELLING ON SUBSTANDARD LOT OF RECORD

OR THE "FF" FOREST FARM ZONE~~

~~SECTION 11.010 Purpose~~

~~An application for a building permit for a non farm or non forest dwelling on a substandard lot of record in a resource area shall be made to the Director pursuant to Section 2.060 of this Ordinance. This procedure applies to building permits for a parcel not meeting the minimum lot area required by the applicable zone classification and qualifying as a lot of record. (Definition Section 1.090).~~

~~SECTION 11.020 Building Permits~~

~~A. Building permits proposed under this chapter for lands zoned "A-1" Exclusive Farm Use shall conform to the following criteria and shall be processed pursuant to Section 2.060(A):~~

~~1. Any permitted non farm dwelling shall not interfere with the continuation of the existing commercial agricultural enterprise within the area, considering the following factors:~~

~~a. The proposed non farm dwelling is not incompatible with the horticultural or the ranching farm use in the area and does not interfere either in itself or in the location of improvements, with "current accepted farming practices"; as that term is defined in O.R.S. 215.203 which characterizes such use;~~

~~b. The proposed non farm dwelling is not inconsistent with the agricultural land use policy for the State of Oregon expressed in O.R.S. 215.243;~~

~~c. The substandard lot of record shall have sufficient area and otherwise be capable of being served by a domestic water supply and sewage disposal system approved by the appropriate sanitary authority.~~

~~B. Building permits proposed under this chapter for lands zoned "FF" Forest Farm shall conform to the following criteria, and shall be processed pursuant to Section 2.060(A):~~

~~1. The proposed non farm or non forest dwelling is not incompatible with farm and forest uses in the area, and does not interfere with the farm or forest practices.~~

990184 1139 106

- ~~_____ 2. The proposed non-farm or non-forest dwelling is not inconsistent with the farm and forest use policies as provided for in the Comprehensive Plan.~~
- ~~_____ 3. The proposed non-farm or non-forest dwelling does not materially alter the stability of the over-all land use pattern in the area nor substantially add to the demand for increased use of road or other public facilities and services;~~
- ~~_____ 4. The substandard lot of record shall have a sufficient area and otherwise be capable of being served by a domestic water supply and sewage disposal system approved by the appropriate sanitary authority.]~~

CHAPTER 13 NONCONFORMING USES, BUILDINGS AND LOTS

SECTION 13.010 Purpose

It is necessary and consistent with the establishment of this Ordinance that all uses and structures incompatible with permitted uses or structures in each zone be strictly regulated and permitted to exist only under rigid controls. The purpose of such regulation and control is to change a nonconforming use or structure to a conforming status or to discontinue the use or structure.

SECTION 13.020 Nonconforming Uses

Except as is hereinafter provided in this Ordinance, the lawful use of a building or structure or of any land or premises lawfully existing at the time of the effective date of this Ordinance or at the time of a change in the official zoning maps may be continued, although such use does not conform with the provisions of this Ordinance.

SECTION 13.030 Vested Right

Nothing contained in this Ordinance shall required any change in the plans, construction, alteration, or designated use of a structure for which a building permit has been issued and construction work has commenced prior to the adoption of this Ordinance, provided the building, if nonconforming or intended for a conforming use, is completed and in use within one (1) year from the time the building permit is issued.

SECTION 13.040 Discontinuance of Nonconforming Use

- A. If a nonconforming use involving a structure is discontinued for a period of ~~six (6)~~ **twelve (12)** months, further use of the property shall conform to this Ordinance.
- B. If a nonconforming use not involving a structure is discontinued for a period of ~~six (6)~~ **twelve (12)** months, further use of the property shall conform to this Ordinance.

SECTION 13.050 Unlawful Use, Not a Nonconforming Use

No unlawful use of property existing at the time of passage of this Ordinance shall be deemed a nonconforming use. Evidence used to identify a use as lawful **(building permit, septic permit, verification from County Assessor that the structure existed prior to building permit regulations)** shall be submitted by the property owner prior to any land use action on a nonconforming use. (Revised 1-92)

SECTION 13.060 Continuation of Nonconforming Use, Structure or Land

Subject to the provisions of Oregon Revised Statutes 215.130, the lawful use of any building, structure or land at the time of the enactment or amendment of this Ordinance may be continued. Alteration of any such use may be permitted when necessary to comply with any lawful requirements for alteration in the use.

SECTION 13.070 Restoration of Nonconforming Building or Structure

If a nonconforming structure or a structure containing a nonconforming use is destroyed by fire, other casualty or natural disaster, restoration or replacement shall be permitted, provided restoration or replacement is commenced within ~~[six (6)]~~ **twelve (12)** months from the occurrence of the fire, casualty or natural disaster. The restoration or reconstruction of a nonconforming building or structure may not increase the floor area or create a greater nonconformance that existed at the time of damage or destruction. **In order to qualify for restoration of a nonconforming building or structure, verification must be provided that the building was placed legally (building permit, septic permit, verification from County Assessor that the structure existed prior to building permit regulations).**

WASCO COUNTY COMPREHENSIVE PLAN AMENDMENT

Citizen Involvement

Citizen involvement is an integral part of the overall planning process. It encompasses not only the review and acceptance of the comprehensive plan, but requires citizens to be involved in each phase of plan development.

To insure citizen involvement and influence in the development of the various plans and ordinances, the County organized citizen advisory groups for each of the planning units. These groups, which consisted of concerned citizens from within the planning units, worked in connection with the staff and the general public through a series of public hearings and workshops. Together, the citizens of the area reviewed the data and inventories which were accumulated by the staff and from these formed goals and policies which provide the framework of the comprehensive plan. The planning area approach will be maintained in connection with the citizen involvement program. Each of the former planning areas will be represented by a citizen advisory group.

The following pages list the individuals in each of the area citizen advisory groups that participated in the development of the resource elements and the Goals and Policies portion of the Wasco County Comprehensive Plan.

To ensure continued meaningful citizen involvement and influence in the development of various plans and ordinances the County will organize, staff and work with a number of citizen advisory groups. The County's planning program (and state law) has continued to progress to a point where clear topic areas have developed. It is critical the Planning Department be able to seek the expertise and opinions of individuals with knowledge and interests in these various subjects. For this reason the pre existing regionally defined citizen advisory group format of citizen involvement is now being organized around specific planning topics and tasks. The advisory groups will be set up to represent issues including but not limited to the following subjects:

- Transitional Lands Study Area
- Goal 3 Lands
- Goal 4 Lands
- Rural Communities
- National Scenic Area

This arrangement provides input on specialized topic areas while also representing regional interests as they align themselves with the topics and their related planning tasks. Citizens serving on these committees will focus in depth on projects within their focus area. They will meet regularly on at least a bi-annual basis to review the workings of adopted ordinances and plan provisions affecting their immediate interests. In addition to these regular meetings, they will coordinate with staff, as needed, to provide input on suggested revisions and critical issues prior to bringing these issues before the Planning Commission.

Advisory group members shall also be charged with seeking and bringing to the planning process the broader input of the citizens with whom they live and work. Members represent or have affiliation with groups that have special knowledge (or interest) regarding the focus subject. In addition to bringing input to the planning process, advisory groups will also carry the knowledge they gain back to those same citizens. The County will continue to encourage input

from the broader public throughout its planning processes at the advisory group level, before the Planning Commission and before the County Court.

Citizen Advisory Group membership will be by appointment of the County Court. Group size will vary depending on interests to be represented. Terms of appointment will be determined by the advisory group members.
