E. Requirements for Dwellings Not Provided in Conjunction With Farm Use.

Dwellings not provided in conjunction with farm use may be authorized upon findings that:

1. The parcel is not on High Value Agricultural lands within the A-1(40) Zone. ~~{(amended 6/98)}~~
2. There is no other dwelling on the parcel.
3. The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use;
4. The dwelling will not materially alter the stability of the overall land use pattern of the area.
5. The dwelling is situated upon a lot or parcel, or a portion of a lot or parcel, that is generally unsuitable land for the production of farm crops and livestock, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the tract. A lot or parcel shall not be considered unsuitable solely because of size or location if it can reasonably be put to farm or forest use in conjunction with other land.

A lot or parcel is not "generally unsuitable" simply because it is too small to be farmed profitably by itself. If a lot or parcel can be sold, leased, rented or otherwise managed as a part of a commercial farm or ranch, it is not "generally unsuitable." A lot or parcel is presumed to be suitable if it is composed predominantly of Class I - VI soils.

Just because a lot or parcel is unsuitable for one farm use does not mean it is not suitable for another farm use. If the parcel is under forest assessment, the area is not "generally unsuitable" simply because it is too small to be managed for forest production profitably by itself.

The term "generally unsuitable" is vague. The following criteria define and specify in clear, objective, measurable means what is generally unsuitable land for agriculture in Wasco County.

The homestead retention option [WCLUDO 3.210(C)(24)] is required to meet the non-farm dwelling and part of parcel standards, to insure essential agricultural land and services are not removed from the farming operation when retaining the homestead as a part of the operation.

6. The site shall have appropriate physical characteristics such as adequate drainage, proper sanitation and water facilities to accommodate a residence or other non-farm use. (added 6/98)
7. Criteria for "Generally Unsuitable"

A non farm dwelling may be allowed if: a) the entire parcel, or b) portion of a parcel is "generally unsuitable" as prescribed below:

- a. On parcels less than 80 acres that were created prior to January 1, 1993. **(This date was established by law and ORS 215.284(2)(c))**, and parcels created pursuant to the "Part of Parcel" and Homestead Retention provisions when the entire parcel is found to be generally unsuitable. That is, 51% of the parcel is a Class VII or poorer soil as determined by the SCS Soil Survey for Wasco County, and (one) 1 of the following:
 - (1) predominantly greater than 40 % slope, or
 - (2) produces less than 25 bushels per acre wheat or cereal grains crop, or less than 1 ton per acre of alfalfa or other type of hay as per Farm Service Agency (FSA) registered field crop information. Averages shall be based on acres in production ~~{(amended 6/98)}~~; or
 - (3) never been cropped according to the ASCS (FSA) aerial photos and records, and requires more than 5 acres per AUM.

and, meets the following provisions for fire, road and recordation in deeds:

- (4) located within a fire protection district; or
- (5) can contract and maintain the contract with an established fire protection district; or

- or,
- (7) Use a duly formed water district to provide fire protection within their established boundaries; and fire protection must be included within their articles of incorporation.
- and,
- (8) Shall be located on an all weather road that is maintained on a year round basis and which construction and maintenance meets Wasco County Public Works Department approval. (Approval will be generally based upon the standards prescribed in Figure 1, until such time as the County Road Department can commission an engineering study to update the County Road Standards.); - A landowner may contact the Wasco County Public Works Department and cost share 50/50 for road improvements thus allowing the dwelling under current standards;
- and,
- (9) The landowner for the dwelling shall sign and record in the deed records for the county a document binding the landowner, and the landowner's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937. [All dwelling approvals shall receive copies of the State of Oregon Right to Farm Ordinance (Appendix B) and Wasco County Complaint Mediation Ordinance (Appendix C).]
- b. On parcels at least 80 acres but less than 160 acres that were created prior to January 1, 1993, a portion of the parcel that is identified for the dwelling site is a Class VII soil or poorer as determined by the SCS Soil Survey for Wasco County, and (one) 1 of the following:
- (1) predominantly greater than 40% slope; or

FIGURE 1. WASCO COUNTY ROAD STANDARDS

The following standards apply for the creation of new roads or improvement of existing roads in the EFU. All ADT's (average daily trips) are determined by the Wasco County Public Works Department.

<u>AVERAGE DAILY TRIPS (ADT's)</u>	<u>UNDER 50</u>	<u>50 - 250</u>	<u>250 +</u>
Road Type:	18' gravel	24' gravel	24' paved with (2)6' shoulders

Note: Figure 1 is a modification of Wasco County's Road Standards, and will be only used as a general guideline for County Road Department approval. It does not take into consideration other factors such as type of use, terrain, and mail/bus routes, all of which must be considered in the County Road Department approval process.

- 8. Criteria for forested land within the EFU zone
 - a. If the parcel is unsuitable for agricultural use and is under forest assessment, the dwelling shall be situated upon generally unsuitable land for the production of merchantable tree species recognized by the Forest Practices Rules, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the parcel.
 - b. If a lot or parcel is under forest assessment, it is presumed unsuitable if it is composed predominantly of soils capable of producing less than 20 cubic feet of wood fiber per acre per year and may qualify for a dwelling if it can be found that:
 - (1) The dwelling is compatible; and

- (2) The dwelling does not seriously interfere with forest or farm uses on surrounding land and it must not force a significant change in forest practices or significantly increase the cost of those practices on the surrounding land; and
- (3) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern in the area, the director or commission shall consider the cumulative impact of nonfarm dwellings on other lots or parcels in the area similarly situated. If the application involves the creation of a new parcel for the nonfarm dwelling, the director or commission shall consider whether creation of the parcel will lead to creation of other nonfarm parcels, to the detriment of agriculture in the area.

and, meets the following provisions for fire, road and recordation in deeds:

- (4) located within a fire protection district; or
- (5) can contract and maintain the contract with an established fire protection district; or
- (6) volunteer fire protection group that:
 - establishes boundaries or contracts for protection,
 - establishes a contact person in case of emergency, and
 - establishes a phone tree or other effective system of communication. ~~[(amended 6/98)]~~

or,

- (7) Use a duly formed water district to provide fire protection within their established boundaries; and fire protection must be included within their articles of incorporation.

and,

- (8) Shall be located on an all-weather road that is maintained on a year-round basis and which construction and maintenance meets Wasco County Road Public Works Department approval. (Approval will be generally based upon the standards prescribed in Figure 1.); and

Temporary informational notes are in {brackets}; these notes will not be included in the final ordinance.

A landowner may contact the Wasco County Public Works Department and cost share 50/50 for road improvements thus allowing the dwelling under current standards;

and,

- (9) The landowner for the dwelling shall sign and record in the deed records for the county a document binding the landowner, and the landowner's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937. [All dwelling approvals shall receive copies of the State of Oregon Right to Farm Ordinance (Appendix B) and Wasco County Complaint Mediation Ordinance (Appendix C).]

9. Fire safety development standards.

- a. Exterior roofing shall be composed of fire-resistant materials.
- b. The owners of the dwelling and structures shall: maintain a primary fuel-free break area surrounding all structures; clear and maintain a secondary fuel-free break area on land that is owned or controlled by the owner according to the chart below.

Slope	Size of Safety Zone by Percent Slope	
	Feet of Primary Safety Zone	Feet of Additional Safety Zone Down Slope
0%	30	0
10%	30	50
20%	30	75
25%	30	100
40%	30	150

- c. The owners of the dwelling and structures shall: maintain setbacks from ridgetops, cliffs and bluffs. The steeper the slope, the greater the flame length, the hotter the flame front and the faster the rate of fire spread. This is primarily due to preheating of the vegetation upslope from the fire, increased draft of fresh air to the fire from below.

Setback from Ridgetop, Cliff and Bluff in Conjunction with Fuel Break Safety Zone

Downhill slope	Feet of Setback
10%	50
20%	75
25%	100
40%	150

(added 6/98)

10. **Fire safety development recommendations:**

- a. **Utilities such as powerline extensions and telephone should be located underground where feasible.**
- b. **If a water supply, such as a swimming pool, pond, stream, or lake, exists within 100 feet of the driveway or road at a reasonable grade, then access to within 15 feet of the water's edge should be provided for pumping units. (added 6/98)**

F. **Requirements for Accessory Farm Dwellings**

An accessory farm dwelling may be considered customarily provided in conjunction with farm use if:

- 1. **It meets all the following requirements:**
 - a. **The accessory farm dwelling will be occupied by a person or persons who will be principally engaged in the farm use of the land and whose assistance in the management of the farm use is or will be required by the farm operator; and**
 - b. **The accessory dwelling will be located:**
 - (1) **On the same lot or parcel as the dwelling of the principal farm dwelling; or**
 - (2) **On the same tract as the principal farm dwelling when the lot or parcel on which the accessory dwelling will be sited is consolidated into a single parcel with all other contiguous lots and parcels in the tract; or**

- b. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract.
3. The governing body of a county shall not approve any proposed division of a lot or parcel for an accessory farm dwelling approved pursuant to this section. These standards are for determination of applicability of an accessory dwelling, and do not justify division of land for purposes of siting a dwelling.
 - a. If it is determined that an accessory farm dwelling satisfies the requirements of WCLUDO Section 3.210(D) "Dwellings in Conjunction with Farm Use", a parcel may be created consistent with the minimum parcel size requirements in WCLUDO Section 3.210(G)
4. An accessory farm dwelling approved pursuant to this section cannot later be used to satisfy the requirements for a dwelling not provided in conjunction with farm use pursuant to WCLUDO Section 3.210(E).

G. Lot Size Standards

1. There shall be a 40 acre minimum land division for farm parcels in the A-1(40) zone. ~~{(amended 6/98)}~~
2. There shall be a 160 acre minimum land division for all parcels in the Exclusive Farm Use Zone that are not within the A-1(40) zone. ~~{(amended 6/98)}~~

PART OF PARCEL

3. Land divisions creating parcels of less than 160 acres may be permitted for non-farm uses authorized in accordance with applicable WCLUDO Section 3.210(C) & (E), Chapter 21 and ~~{(amended 6/98)}~~:
 - a. New lots or parcels for dwellings not in conjunction with farm use may be permitted only if the dwelling has been authorized in accordance with WCLUDO 3.210(C) & (E); and
 - b. The remaining lot or parcel not containing the dwelling or other non farm use meets the 160 acre land division standard of the EFU zone; or
 - c. The remaining lot or parcel not containing the dwellings or other non farm use consolidated with an adjoining lot or parcel which together meet the 160 acre land division standard of the EFU zone; and

Temporary informational notes are in {brackets}; these notes will not be included in the final ordinance.

d. Maximum Part of Parcel that may be created per tract are as follows:

- (1) 162 acres - to less than 500 acres = 1 Part of Parcel
- (2) 500 acres but less than 1000 acres = 2 Part of Parcel
- (3) 1000 acres and greater = 3 Part of Parcel

4. New parcels created for a dwelling not in conjunction with farm use shall be a minimum of two (2) acres and a maximum of (20) acres.
5. Creation of part of parcel shall not occur within the A-1(40) Zone. ~~{(amended 6/98)}~~
6. Subdivisions and Series Partitions pursuant to ORS 92.010 - 92.190, and 92.305 - 92.495: Subdivisions are prohibited in the Exclusive Farm Use Zone. Series Partitions for non-farm uses are prohibited in the Exclusive Farm Use Zone. This provision applies only to applications for a land division submitted after July 1, 1997. ~~{(amended 6/98)}~~
7. Total land divisions for a dwelling not provided in conjunction with farm use shall not exceed three for each non-farm parent parcel (non-farm parcels created after July 1, 1997), regardless of changes in ownership. Such divisions shall not exceed 2 in a single calendar year. (added 6/98)
8. Parcels for allowed uses other than dwellings pursuant to ORS 215.283(2) shall not be larger than the minimum size necessary for the use. (added 6/98)
9. No Part of Parcel property boundary line will divide any field covered by a water right.

H. Dimensional Standards and Setbacks

Dimensional standards and setbacks are designed to protect the human population as well as the natural environment. A variance subject to WCLUDO Chapter 6, or Chapter 7 may be utilized to alleviate an exceptional or extraordinary circumstances that would otherwise preclude the parcel from being utilized. A variance to these standards is not to be used to achieve a preferential siting that could otherwise be achieved by adherence to these prescribed standards.

1. Additions or modifications to existing farm or non-farm structures or group of structures built before January 1, 1997 shall be set back 40 feet from roads, 25 feet from side yards and 40 feet from the rear yard property lines. These setbacks do not apply to fences and signs. ~~{(amended 6/98)}~~

Temporary informational notes are in {brackets}; these notes will not be included in the final ordinance.

- b. Signs shall be limited to twelve square feet in area and shall describe only uses permitted and conducted on the property on which the sign is located.
 - c. Temporary signs such as signs advertising the sale or rental of the premise are permitted provided the sign is erected no closer than ten feet from the public road right-of-way. (added 6/98)
8. Lighting. Outdoor lighting shall be sited, limited in intensity, shielded and hooded in a manner that prevents the lighting from projecting onto adjacent properties, ~~[and] roadways and waterways.~~ **Shielding and hooding materials shall be composed of nonreflective, opaque materials.** ~~[(added 6/98)]~~ {NOTE: This change is part of Ordinance LUA99-101-L (General LUDO Updates)}
9. **New Driveways – All new driveways which access a public road shall obtain a Road Approach Permit from the Wasco County Public Works Department.** {NOTE: This change is part of Ordinance LUA99-101-L (General LUDO Updates)}

2. New Farm or non-farm structures and dwellings on parcels unimproved as of January 1, 1997 shall be set back 200 feet from all property lines and 40 feet from roads. If the road is also a property line, the setback is 200 feet from the road. A natural topographic or vegetative barrier may reduce the setback to 100 feet. Parcels may qualify for a variance if these setbacks render the parcel impractical to develop. These setbacks do not apply to fences and signs.
 - a. In addition to the above setbacks, farm dwellings shall be set back 50 feet from any field used for agricultural crops; either on the subject parcel or adjacent parcels.
 - b. In addition to the above setbacks, Farm labor housing, and farm accessory structures shall be set back 100 feet from any field used for agricultural crops; either on the subject parcel or adjacent parcels.
{(amended 6/98)}
3. No farm or non-farm dwelling, non-farm accessory structure, or seasonal farm labor housing shall exceed a height of 35 feet. {(amended 6/98)} **Height is measured from average grade.** {NOTE: This change is part of Ordinance LUA99-101-L (General LUDO Updates)}

5. All bottoms of foundations of all permanent structures shall be above the 100 year floodplain.
6. All dwellings and structures shall be setback 100 feet from the centerline of irrigation ditches which continue past the subject parcel to provide water to other property owners. Substandard setbacks must receive prior approval from the affected irrigation district. These setbacks do not apply to fences and signs.
{(amended 6/98)}
7. Signs. Permanent signs shall not project beyond the property line.
 - a. Signs shall not be illuminated or capable of movement.

NOTE: New text is in **Bold**; text to be deleted is in ~~strikeout~~
Temporary informational notes are in {brackets}; these notes will not be included in the final ordinance.

2. The Agricultural Resource Group (Appendix D) shall appoint a five member subcommittee to be both farmers and residents of Wasco County representing the North, Central and Southern portions of the county. The subcommittee will meet annually the third week following the date of adoption of the revised WCLUDO Section 3.210 to review the summary of land use actions taken in the EFU zone for the previous year. The purpose of the review will be:
 - a. To ensure that the administration of the EFU zone as evidence by administrative and quasi-judicial decisions is to:

Primarily:
 - Protect private property rights of the agricultural producer.
 - Keep agricultural operation viable.
 - Protect farm practices and the right to farm.
 - Preserve and protect farmland.
And Secondly:
 - Protect private property rights, on agricultural zoned land, of the farmer and non-farmer alike; that is, the right of property is the reasonable and lawful use of the agricultural land.
 - b. Identify any potential problems or issues that were not foreseen during the development of the ordinance; and
 - c. Identify any changes or alterations, due to approval of land uses in the EFU zone, to the over all land use agricultural pattern of the county; and
 - d. Address any new information (i.e. soils, OSU commodity productivity, new legislation, water rights, natural disasters, etc) that may effect the administration of the EFU zone and ordinance; and
 - e. Prepare a summary report to be sent to the County Court and ARG members outlining the findings of the subcommittee; and
 - f. If necessary, convene the entire Agricultural Resource Group to address the need to make necessary changes to the EFU map and zoning ordinance based on findings from the annual summary.
3. Review the concept of implementing a cost recovery program for the upgrading, expansion or new construction of Wasco County roads.

Temporary informational notes are in {brackets}; these notes will not be included in the final ordinance.

NOTE: New text is in **Bold**; text to be deleted is in [strikeout]

5. Review farm to farm conflict and potential setbacks for new agricultural use to prevent conflict between agricultural practices.
6. Review farm ranch recreation and lodging concept.
7. Review and develop clear and objective criteria for Section 3.210(E)(4) - "The dwelling does not materially alter the stability of the overall land use pattern of the area." The intent is to better define what "materially alter" means; what is the area that must be evaluated, and what criteria determine the overall land use pattern of an area.
