

Geologic Hazards Professionals List

For development within a zone that is included in the Environmental Protection District (EPD) 2-Geologic Hazards; a report may be required from a registered Geologic Hazard Professional. For this reason, we have compiled the following list of vendors who you might contact to assist you.

Note: This is a partial list, and does not constitute a recommendation of that vendor. Please refer to the telephone directory or internet for other options. Any company licensed in Oregon who offers geo-hazard report services can create a geo-hazard report in Wasco County. If you know a firm that would like to be added to this list, please call or email the Planning Department at (541) 506 2560 or WCPlanning@co.wasco.or.us.
