

WILLIAMSVILLE SOUTH HIGH SCHOOL

Shared Decision Making Team—Goals

2019-2020

2019-2020 South High Goals

The mission of the Williamsville South SDM Team is to work toward providing a safe and supportive learning environment, which fosters an increase in student achievement, mutual respect, responsibility, critical thinking and healthy lifestyles. ALL students will be offered the opportunity to become decision-makers, life-long learners and dependable, productive citizens.

The 2019-2020 SDM plan contains two primary goals.

First, we will develop and establish a school wide positive behavior recognition program, designed to recognize and reward the little behaviors our students exhibit each and every day that contribute to a positive culture here at South.

Second, we will work to develop a high school level exploration day, designed to provide students the opportunity to experience a variety of presentations, including personal wellness topics, career oriented subjects and personal interest topics. This day will allow students the freedom of choice to explore the various topics within these categories, and a sense that school is preparing them for more than just academic issues.

Along with the above goals we will continue to incorporate SMART Goals from each Data Team into our plan. Each Data Team has selected an area of focus and will meet regularly to improve student learning.
