Re: SOD Application to Repair/Replace existing steps/railing from property to shoreline. 71 Old Town Landing Road, Yarmouth, Maine 04096. Map:2 Lot:55

**Proposed Construction:**

There is an existing stone stair case and wooden railing that has been present on the property for years. Photographs are attached to the application. The stairs and railing are in disrepair. We propose to dig out the existing steps. Prepare the base of the steps with materials to allow proper runoff and water drainage, and replace the stairs with new natural un cut/polished granite stairs. We also propose to replace the existing railing with a more sturdy and safe metal or wooden railing. In terms of securing the railing and steps the first post and tread will be pinned to the existing ledge remaining railing posts will be set into holes dug by a post digger.

There should be no need to clear any additional land or vegetation from the property. I do not anticipate the use of any machinery and access to the shoreline will be gained through my property.

If there are any further questions please feel free to contact me.

Yours truly,

Ravi Kamra
