Subject: Change to Village Run Trail Minor Site-plan
Date: Tuesday, June 2, 2020 4:03:24 PM

Hi Wendy,

Karyn was reviewing the Village Run Trail Project package and realized that I made an error in the traffic study exhibit 12.

That section made reference to the Riverfront Woods Project, but instead should have said, "This project was envisioned during the planning of the Village Run Subdivision, as a covenant of that subdivision's acceptance a bump-out was created on the street for two cars to be used as access for the Village Run Open Space. This was determined at the time to be adequate for the needs of the Village Run Open Space and it is not anticipated that current trail plans will increase parking demand beyond the existing lots capacity."

What would be the best way to approach making that amendment to the text?

Thanks again for all you do,
Erik
